OUR FERTILIZERS ARE...

*Custom-Blended *Dry Granular *All Mineral, With Slow-Release Nitrogen's

| | Good | Better | Best |
|--|-------------------|-------------------|--------------------|
| | FOUR STEP PROGRAM | FIVE STEP PROGRAM | SEVEN STEP PROGRAM |
| STEP #1 | | | |
| Fertilizer with Pre-emergent Crabgrass Control - Pre-emergent herbicides is applied for control of Crabgrass, Barnyard Grass, Foxtail and other annual Grassy Weeds. In most seasons, treatment deadline is mid-April for Central Ohio. | ✓ | ✓ | ✓ |
| STEP #2 | | | |
| Spring Fertilization and Broadleaf Weed Control - This is when weeds are actively growing and temperatures are above 50 degrees. A Pre-emergent will also be applied for a second time in high pressure areas to further control Grassy Weeds. | ✓ | ✓ | ✓ |
| STEP #3 | | | |
| An Additional Broadleaf Weed Control - Applied between STEP Numbers 2 & 4. This additional STEP works well for High Maintenance Properties (problem areas) or for the property owner who wants to take extra care of their yard. | | | ✓ |
| STEP #4 | | | |
| Summer Fertilization and Broadleaf Weed & Lawn Insect Control - This application protects you lawn from Surface Insects (Bluegrass Billbug Larvae & Chinch Bug) and Subsurface Insects (Grubs & Sod Webworm). | | ✓ | ✓ |
| STEP #5 | | | |
| Late Summer Fertilization and Broadleaf Weed Control - In addition to the normal weed and feed, we spot treat to further control Grassy Weeds. <i>This is also the best time to Aerate , Renovate or Overseed your Lawn</i> (at an additional cost). | ✓ | ✓ | ✓ |
| STEP #6 | | | |
| Fall Aeration - Benefits all species of Grass. Increases air & water flow in the soil. Improves the effectiveness of Fertilizer, Fungicides and Pesticides. <i>It is also, the best time to Renovate & Overseed your Lawn</i> (at an additional cost). | | | ✓ |
| STEP #7 | | | |
| Late Fall Fertilization & Broadleaf Weed Control - Winterizer is the Most Important Fertilization & Weed Control Treatment of the Year. You will see Results this year and next! | ✓ | ✓ | ✓ |

The **Good**, Four Step Program: Mainly used for properties over 12,000 sq. ft. where weed control is not the top priority, May also be altered to include Insect Control with Fertilizer in the second application (at an additional cost to the home owner.)

Note: Depending the program you choose Aeration may be at an additional cost. Renovations & Overseeding have additional costs.

All programs control weeds. Individual choosing the 4 STEP Program will not have the same results as someone using the 7 STEP Program.

*Service Calls two weeks from your scheduled treatment will result in an Additional Treatment and Fee.

*Additional Applications can be substituted for Aeration within the SEVEN STEP Program.
